MADE IN JAPAN

Midget Nipper Pro™

- a simple nail cutting solution

**Cut off Nail by one hand !
16D galvanized nail ? No Problems !
in a Quick, Easy and Safe way.**

You can make it Easy & Safe!

1. Flush Cut by angled blade

Cut off shiny nail-end that appears underneath the deck, roof or ceiling. After flush cut, you can place the new lumber without removing the old nails. This is how quickly you replace the fascia board.

2. One Hand Easy Cutting

With traditional cutters like cutting pliers you are struggling with the old nails on the ladder. It's very dangerous. This Bolt Cutter-like design gives you higher leverage and cuts even 16D Galvanized nail easily and safely.

3. Spring loaded handle

Speed-up your cutting work, like 1. 2. 3 ! Spring loaded handle keeps you going. Instead of opening handles by fingers after each cuts, just let the cutter open. Spring action also allows you to hold the cutter in your palm securely.

Item No. MN-0022

- Easy one hand scissor-like function with spring loaded action.
- Various models available for different cutting materials, cutting situation and purpose. Works great even in tight spaces.
- Superior performance and durability. Made in Japan.
- The gap between blades can be adjusted by the bolt on the handle for cutting harder materials and longer blade life time.

Model No.	MC-0020
Description	Midget Cutter
Overall Length	8"
Weight	1/2 lbs
Cutting Capacity	3/16 (soft)

✓ Angled Blade for Flush Cut

Model No.	MN-0020
Description	Midget Nipper
Overall Length	8"
Weight	1/2 lbs
Cutting Capacity	1/8 (soft)

✓ Angled Blade for Flush Cut

Model No.	MN-0022
Description	Midget Nipper Pro
Overall Length	8"
Weight	1/2 lbs
Cutting Capacity	1/8 (soft)

Model No.	ME-0020
Description	End Cutter
Overall Length	8"
Weight	1/2 lbs
Cutting Capacity	1/8 (soft), 1/16 (hard)

Model No.	MCS-0020
Description	Midget Cutter Special
Overall Length	8"
Weight	1/2 lbs
Cutting Capacity	3/16 (soft), 1/16 (hard)

Model No.	MS-0020
Description	Wire/Cable Cutter
Overall Length	7"
Weight	1/2 lbs
Cutting Capacity	3/16 (stranded wire) for rigging wire and cable rails

Model No.	MU-0020
Description	All Purpose Snip
Overall Length	8"
Weight	1/2 lbs
Cutting Capacity	0.32" (thickness)

Model No.	SUSMU-02
Description	Stainless All Purpose Snip
Overall Length	8"
Weight	1/2 lbs
Cutting Capacity	0.32" (thickness)

Model No.	SUSMC-02
Description	Stainless Midget Cutter
Overall Length	8"
Weight	1/2 lbs
Cutting Capacity	3/16 (soft)

Model No.	CC-0020
Description	Electrical Cable Cutter
Overall Length	8"
Weight	1/2 lbs
Cutting Capacity	1/8 (copper/aluminum cond.)

Model No.	MCF-200
Description	Fence Cutter
Overall Length	8"
Weight	1/2 lbs
Cutting Capacity	1/8 (soft)

Model No.	ASR-0101
Description	Aviation Snip
Overall Length	9"
Weight	1/2 lbs
Cutting Capacity	0.32" tin (thickness)

Model No.	SC-0200
Description	Strap Cutter
Overall Length	9"
Weight	1/2 lbs
Cutting Capacity	1/36" (thickness)

Model No.	ML-0020
Description	Lath Cutter
Overall Length	10"
Weight	1/2 lbs
Cutting Capacity	1/36 (thickness)
