PIPE SAW - Pro
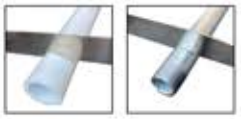
(PDR-P240)



PIPE SAW - Multi
(PDR-M240)

- Compact design with flexible shank works great in tight space such as pipe in ditch.
- The cutting edge is designed for long-lasting new condition and made of Japanese high standard steel for saws.
- Metallic coated blade for low friction and carefully heat-treated cutting edge present the superior performance of cutting.
- Anti-slipping grip with ergonomic design makes a recognizable difference.
- Simple blade exchange design saves time and requires no effort to replace the blade.

	Model No.	Materials to be cut	Capacity	Overall Length	Blade Size	Teeth/inch	UPC
Pro	PDR-P240	Plastic Pipes(PVC, CPVC, ABS, PE)	4" or 102mm O.D.	15" (38cm)	12" (30cm)	18 point	630370103768

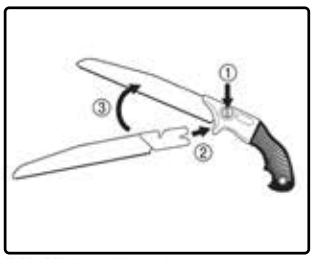
Replacement blade

	Model No.	Description	UPC
Pro	PDREP240	Replacement Blade for PIPE SAW Pro	630370103782
Multi	PDREM240	Replacement Blade for PIPE SAW Multi	630370103775

Sharp, flexible, durable
Flexible shank with sharp cutting edge further extends your cutting work to a space where you never imagine to use a saw.

Ergonomic handle
provides the comfortable and solid grip with or without gloves in any situation.



Simple blade exchange
Just loosening the bolt allows you to disengage the blade and insert the new blade for replacement.
